EXECUTIVE SUMMARY

Act 564 of the 2014 Louisiana Legislature requires the development of an annual statistical report on human trafficking in Louisiana. The report is to be submitted to the Legislature by the Department of Children and Family Services (DCFS). DCFS developed a list of 56 Human Trafficking providers in Louisiana and contacted them to report information on human trafficking victims that they served. An Excel spreadsheet was developed with instructions and sent to each of the providers. A website was developed with the assistance of Louisiana State Police for providers to securely enter their data, for those agencies wishing to use the website. A total of 13 agencies provided data for this report. Providers reported a total of 357 confirmed and prospective victims. Of the victims identified, 289 (81%) were sexual trafficking victims, 64 (18%) were labor trafficking victims, 3 victims were not reported as to type, and 1 was a victim of both labor and sexual trafficking. Of the sexual trafficking victims, 104 (36%) were identified as juveniles. Juvenile victims of trafficking were most frequently associated with Caddo, East Baton Rouge and Orleans parishes as the identified parishes for both trafficking and rescue. East Baton Rouge, Caddo, Jefferson and Orleans parishes have the largest number of adult victims. Of the victims reported, 86% were female, 11% male, 2% not reported and 1% Transgender. The most frequently provided services were Referral to Community Resources, Health Care, Mental Health, Education, and Housing. The age range of Sexual Trafficking victims was from 7-58. There were 5 sexual trafficking victims age 12 and under. Ages ranged from 31-65 for Labor Trafficking victims.

REPORTING REQUIREMENTS OF ACT 564

Act 564 requires the development of an annual statistical report on human trafficking in Louisiana. The report is to be submitted to the Legislature by the Department of Children and Family Services (DCFS) by the first of February of each year with the following information:

1. Juvenile Safe House

Each safe house operating under a contract with the department to provide services to sexually exploited children pursuant to the provisions of this Article (Article 725.2.B. Louisiana Children's Code)

2. Each Private Entity That Provides Services To Victims Under the Human Trafficking Services Plan for: Juveniles (RS:46:2161) Adults (RS:46:2161)

Each private entity that provides services to human trafficking victims, adult or juvenile victims, under a Human Trafficking Victims Services Plan, shall submit to the department an annual report on their operations including information on:

- The services offered
- Geographic areas served
- Number of children (or adults) served
- Individual status updates on each child served

This information shall not include the name, address, or other identifying information of the child (or adults) served.

There were no state funds allocated to conduct this study.

ESTABLISHMENT OF DATA COLLECTION PROCESS

In July 2014 the Department of Children and Family Services (DCFS) began the development of the Statistical Report on Human Trafficking by identifying agencies that were providing services to adult or juvenile human trafficking victims. DCFS interpreted Act 564 to encompass data from these servicing agencies. Act 564 defines human trafficking to include both sexual and labor trafficking.

Because the legislation requested individual status updates on each child or adult served, DCFS requested de-identified individual case information from each organization. DCFS developed a draft template for data submission. The draft was developed with input from several human trafficking service organizations. Data collection fields included the option of entering client initials and date of birth to allow each submitting agency to more quickly identify a specific client when needing to review or update information. The data elements were not sufficient to allow identification of specific victims.

In 2014 DCFS worked out an agreement with Louisiana State Police for the use of the secure Homeland Security Information System (HSIN) site for collecting data from the Human Trafficking organizations to upload case data. It was thought that having a website that agencies could utilize to enter data at their convenience, would be more advantageous than having providers possibly sending data and then sending additional data sets or corrections at a later date. However, the website proved difficult for many providers to use. For the 2014 submission, some providers entered data on the website, but many others opted to enter data directly on a DCFS-provided spreadsheet. For 2015, all providers were sent an Excel spreadsheet to allow them to enter data directly. An instruction sheet on how to enter data was also provided with an explanation of each data element. The HSIN website through State Police was available for 2015 data submission and a few providers also used this means to provide data.

Two categories of victims were created to address the different types of clients served by the providers. One category is Confirmed Victims. These are victims who state they are victims, they are confirmed by law enforcement as involved in human trafficking, or they have received services as a victim of human trafficking. The other category is Prospective Victim. These are individuals who are suspected or at risk of being trafficked who are located in an area known to be involved with human trafficking, or have been referred to a helpline or service agency, but have not been confirmed as a human trafficking victim.

IDENTIFICATION OF HUMAN TRAFFICKING SERVICE PROVIDERS

In August 2014, DCFS organized a meeting with representatives of human trafficking organizations that serve the Metropolitan New Orleans and Baton Rouge areas which included: Eden House, Baptist Friendship House, New Orleans Dream Center, and Healing Place-Serve. The meeting resulted in the identification of human trafficking organizations in Louisiana from which data on services would be requested. A second meeting was held in Baton Rouge in 2014 with additional providers, including: Trafficking Hope, Sexual Trauma Awareness & Response (STAR in Baton Rouge), Hearts of Hope Child Advocacy Center (Lafayette), and Unashamed Love. As a result of this meeting the Louisiana network of Child Advocacy and Sexual Assault Centers were also identified as agencies from which to request data on human trafficking.

DCFS contacted the National Human Trafficking Resource Center (Polaris Project) for information about its list of Louisiana human trafficking service providers. The intent was to have as inclusive a list of providers as possible. The list was obtained and the additional organizations were added to the database of Louisiana Human Trafficking providers. The Resource Center also agreed to assist DCFS Centralized Intake with calls involving human trafficking of adults.

In 2015 a meeting was held with the Louisiana Coalition Against Domestic Violence (LCADV), which represents the domestic violence shelters in Louisiana, and Louisiana Foundation Against Sexual Assault (LAFASA), which represents the sexual assault centers in Louisiana. Sexual assault centers were already part of the list of providers in the CY 2014 submission of data. However, as a result of this meeting, the domestic violence shelters were added to the list of providers to receive a request for data for the CY 2015 report.

ISSUES RELATED TO DATA GATHERING

Two providers notified DCFS in 2014 of concerns about a possible conflict with Federal law regarding the data requested by DCFS for this report. On December 29, 2014, DCFS received a letter from a provider with a copy of **42 U.S. Code § 13925**. This Federal code prohibits agencies that receive Federal funds for a victim of domestic violence, dating violence, sexual assault, or stalking, to disclose any of the following information:

- a) a first and last name
- b) a home or other physical address
- c) contact information (including a postal, e-mail or Internet protocol address, or telephone or facsimile number)
- d) a social security number, driver license number, passport number, or student identification number
- e) any other information, including date of birth, racial or ethnic background, or religious affiliation, that, in combination with any of subparagraphs (A) through (D), would serve to identify any individual

Because some sexual assault centers in Louisiana receive such funding, this provider interpreted Federal law as prohibiting the provision of client level data, even though the DCFS request was for de-identified data. The provider opted to send a short summary of aggregate data on clients served. A second provider who expressed similar reservations about providing the requested data chose to not submit any data.

In the above mentioned meeting in 2015 with LCADV and LAFASA, the issue of conflict with Federal law was again cited as a problem for providing case level data. Consequently, DCFS initiated discussions with the Federal Office on Trafficking in Persons/ Health and Human Services about issues with data gathering and conflict with Federal law. The Federal Office on Trafficking in Persons had also experienced issues in other states with gathering similar data. As a result of DCFS' experience in attempting to gathering data from a variety of service providers, the Department has been asked to participate on a national workgroup to work on data gathering in human trafficking.

RESULTS

Client level data was received from 13 agencies including DCFS. Providers submitted data for 357 Confirmed and Prospective victims of human trafficking. Provider data included actual or estimated age of victims at the time of program entry. Victims were grouped into three age categories: 17 and Under; 18 and Older; and Age Unknown. Act 564 requested from providers a list of the Services provided and Parishes Served. Appendix E is a listing of the providers, parishes served and the services provided.

Type of Trafficking by Age Categories

Of the number of persons reported as trafficking victims, 289 (81%) were sexual trafficking victims, 64 (18%) labor trafficking victims, and 1 was a victim of both labor and sexual trafficking. There were 3 additional trafficking victims for whom the type of trafficking was not reported. For sexual trafficking victims, 104 (36%) were identified as juveniles. The age range of Sexual Trafficking victims was from 7-58. There were 5 sexual trafficking victims age 12 and under. Ages ranged from 31-65 for Labor Trafficking victims.

Type of Trafficking	Age 18 and Older	Age 17 and Under	Age Unknown	Total	%
Labor Trafficking	62	0	2	64	17.93%
Sex Trafficking	181	104	4	289	80.95%

Not Reported	25	2	5	32	8.96%
Totals	244	104	9	357	
%	68.35%	29.13%	2.52%		

Confirmed trafficking victims comprised 63% of those reported while status was not reported for 9%. 29% were reported to be 17 and under; 68% were 18 and Older; age or estimated age was not reported for 3%.

Racial Composition of Victims

The racial composition for victims was 170 African American (48%), 81 White (23%), 61 Asian (17%), 5 Multiracial (1%), 4 Other (1%) and 36 Unknown (10%).

Race	Age 18 and Older	Age 17 and Under	Age Unknown	Totals	%

Services by Age Category

The most frequently provided services were Referral to Community Resources, Health Care, Mental Health care, Education, Job Training, assistance Applying for Benefits and Housing. Provision of food and clothing is the most frequently reported 'Other' service. In addition, consultation is the second most frequently reported 'Other' service. This is often a one-time contact with the victim.

Length of Services

Estimates of the average length of time providers were able to serve victims were computed from program entry and exit dates for victims who exited within CY 2015. There were 242 clients who exited by the end of the year. Both entry and exit dates were provided for 228 of these clients.

Some victims were served for 1 day and were not included in the computation for average length of service. There were 10 adults and 15 minors who were served for one day. For those served more than one day, adults had an average length of service of 2.4 months (155 adults) and minors had an average length of service of 10.9 months (45 minors). The range of service time for minors was from less than 1 week to 58 months. The range of service time for adults was less than a week to 15 months.

APPENDIX D: Federal Laws Related to Human Trafficking

Mann Act, 18 U.S.C.A. § 2421

The White Slave Traffic Act, better known as the Mann Act, was enacted in 1910 as a prohibition against white slavery and the interstate transportation of women for "immoral purposes." Since then, the Act's definition of transportation has been modified and more protections for minors have been added.

While not enacted specifically to deal with human trafficking, the Act makes it a felony to knowingly transport any person in interstate or foreign commerce for prostitution, or for any sexual activity for which a person can be charged with a criminal offense. A person also violates the Act if he persuades, induces, entices, or coerces an individual to travel across state lines to engage in prostitution or other immoral purposes, or attempts to do so. This law is frequently used as an effective tool to prosecute sex traffickers.

Penalties for knowingly persuading or coercing someone to cross state lines for the purpose of engaging in prostitution include a fine or up to 20 years in prison. However, if it is a minor who is being enticed to engage in prostitution, the penalty is ten years to life.

Preventing Sex Trafficking and Strengthening Families Act of 2014 (PL 113-183)

Protecting Children and Youth at Risk of Sex Trafficking: The new legislation addresses the identification and protection of children and youth at risk of sex trafficking.

- States must develop policies and procedures to identify, document, screen and determine appropriate services for children under the child welfare agency's care and supervision, who are victims of, or at risk of, sex trafficking. States, at their option, may develop these policies and procedures for all young adults under 26 regardless of foster care involvement. Effective within one year of enactment.
- State child welfare agencies must immediately report children in their care identified as sex trafficking victims to law enforcement. Effective within two years of enactment.
- State child welfare agencies must report the numbers of children in their care identified as sex trafficking victims to the U.S. Department of Health and Human Services (HHS). Effective within three years of enactment.
- HHS must report these numbers to Congress and make it publicly available. Effective within four years of enactment and each year thereafter.
- HHS must report to Congress annually on the number of child victims and on children who have run away from foster care including their risk of becoming sex trafficking victims—characteristics, potential factors associated with children running away from foster care, information on children's experiences while absent from care and trends in the number of children reported as runaways in each fiscal year; state efforts to provide services and placements; and, state efforts to ensure children in foster care form and maintain long-lasting connections to caring adults. Effective within two years of enactment.
- Requires child welfare agencies to develop and implement protocols to locate children runaway or missing from foster care, determine the child's experiences while absent from care, develop screening to determine if the child is a sex trafficking victim, and report information to HHS; effective within one year of enactment.

National Advisory Committee on the Sex Trafficking of Children and Youth: The act establishes a National Advisory Committee on the Sex Trafficking of Children and Youth in the U.S. to advise on policies to improve the nation's response to the sex trafficking of children and youth. These include the coordination of federal, state, local and tribal governments, child welfare agencies, social service providers, health and mental health, victim services, state and local courts responsible for child welfare and others to develop and implement successful interventions with

vulnerable children and youth and to make recommendations for administrative and legislative changes. Effective within two years of enactment.

Trafficking Victims Prevention Act (TVPA) 2000

The TVPA, enacted October 28, 2000, was the first comprehensive federal law to address trafficking. This Act incorporated a two-tiered definition of trafficking which included severe forms of trafficking in persons and sex trafficking. The law provided a three pronged approach for combating trafficking: prevention through public awareness programs overseas and a State Department run monitoring/sanctions program; protection for victims through visa opportunities and services for foreign national victims; and prosecution through new federal crimes. Provisions in the Act included:

- \$95 million, over the course of two years, for the enforcement of anti-trafficking provisions as new assistance programs.
 - The requirement of annual reports on trafficking as part of the State Department Country reports on Human Rights.
 - The creation of an Inter-agency Task Force to monitor and combat trafficking, which would facilitate and evaluate progress in trafficking prevention, victims assistance, and the prosecution of traffickers.
 - The authorization of grants for shelters and rehabilitation programs.
 - Relief from deportation for victims who face retribution or other hardship if removed from the U.S. through the creation of the T Visa and the temporary legal status of "continued presence."
 - The creation of new crimes of forced labor (**18 U.S.C. § 1589**); trafficking with respect to peonage slavery, involuntary servitude, or forced labor (**18 U.S.C § 1590**); sex trafficking by force, fraud or coercion or sex trafficking of children(**18 U.S.C § 1591**); and unlawful conduct with documents in furtherance of trafficking (**18 U.S.C. § 1592**).
 - Severe punishments, including up to life imprisonment, and the possibility of severe economic sanctions for people convicted of operating trafficking enterprises within the U.S.
-

Trafficking Victims Prevention Reauthorization Act (TVPRA) 2003

The TVPRA, enacted December 19, 2003, reauthorized appropriations for fiscal years 2004 and 2005. The reauthorization called for increased cooperation between foreign governments, assistance for family members of victims and enhanced prosecution of traffickers. The law enhanced prevention of trafficking in persons by:

- Authorizing more than \$200 million over two years to combating human trafficking.
 - Creating a Special Watch List to keep pressure on countries of various Tiers in the trafficking report and added new criteria for the State Department to consider in drafting the trafficking in person report, including evaluating progress from year to year.
 - Allowing the U.S. Government to terminate international contracts if the contractor engages in human trafficking (through forced labor or procurement of commercial sexual services) while the contract is in force.
 - Requiring that travelers to selected locations be educated about U.S. laws against sex tourism.
 - Allowing victims to sue their perpetrators in criminal court.
 - Extending benefits to additional family members of the trafficking victim.
-

Trafficking Victims Prevention Reauthorization Act (TVPRA) 2005

The TVPRA, enacted January 10, 2006, enhanced specified U.S. efforts to combat trafficking in persons, including the prevention of such activities by international peacekeepers. This law further authorized new programs to serve U.S. citizens; victims of domestic trafficking that had been significantly overlooked in terms of services. Key provisions on the Reauthorization Act include:

- Authorizing more than \$300 million over two years to combating human trafficking.
- Providing U.S. courts with jurisdiction over federal government employees and contractors for trafficking offenses committed abroad.
- Requiring the Attorney General to conduct a national study on the illegal commercial sex industry in the U.S., including the prevalence of severe forms of trafficking and sex trafficking in the U.S., and the approach to combat these crimes by law enforcement.
- Requiring the establishment of a pilot program that would provide residential treatment facilities for child victims
- Establishing a grant program for states and local law enforcement to investigate and prosecute acts of severe forms of trafficking (that involve U.S. citizens or legal residents) and criminals who purchase commercial sex acts within the United States.
 - The grants also could be used to expand or develop programs to end the demand for victims

William Wilberforce Trafficking Victims Protection Reauthorization Act of 2008

The William Wilberforce Trafficking Victims Protection Reauthorization Act of 2008 enhances federal efforts to combat both international and domestic trafficking. The law directs the President to create a system to monitor anti-trafficking efforts and programs at the federal level. The Act also strengthens the role and authority of the Trafficking in Persons Office and greatly enhances the tools available to domestic criminal prosecutors of traffickers. For example,

- Prosecutors no longer have to prove that a defendant knew the victim was a minor; they just need to show that a defendant had a “reasonable opportunity to observe” the victim.
- The standard of proof is lowered to “reckless disregard” for traffickers or defendants who come into contact with victims forced to engage in commercial sex acts.
- The provision carries a mandatory minimum sentence of 10 to 15 years and requires no proof of fraud, force or coercion for convictions.
- The Act expands criminal liability to anyone financially benefiting or receiving anything of value from ANY federal trafficking crime, as long as they have the required level of knowledge
- The Act requires the Department of Justice to create a new model law making all acts of pimping and pandering per se crimes, even without proof of force, fraud or coercion or a victim’s minor age.

There are a number of new provisions in the Act specific to data collection and reporting.

- The Act orders the Federal Bureau of Investigation to break down the categories of prostitution and commercialized vice arrests in the Uniform Crime Reports (UCR) to show how many victims, johns and pimps or traffickers were arrested.
- Human trafficking crimes will now be placed in the most serious crimes section of the UCR.
- Several new studies from the Department of Justice about the enforcement of laws related to human trafficking are required.
- HHS and the DOJ must submit a report on the extent of service gaps between domestic and foreign national victims.

The Act also expands protection to trafficking victims and their families in several respects. For example:

- Additional provisions are made to provide assistance for domestic trafficking victims and vulnerable unaccompanied foreign national children.
 - The number of family members eligible for immigration assistance is broadened.
 - Witnesses are allowed to come back to the U.S. to participate in investigations
 - The time period covered by T and U Visas is extended in certain cases
 - Waiver of the “good moral character” requirement if the relevant acts were incident to the trafficking is allowed
